DETAILED ACTION

Allowable Subject Matter

Claims 1-16 are allowed.

The following is an examiner's statement of reasons for allowance: Essentially, the arguments presented by applicant in the Remarks accompanying the Amendment of August 8, 2005 are persuasive. It is clear, upon reviewing the arguments and the original disclosure, that the rhombi of the invention are not mere printed indicia on a sheet, but rather are discrete shapes to be joined together as desired by the user. The structure of the device operates substantially differently from prior art devices such as that disclosed by Matos. As such, the invention is not a mere variation on the prior art, but is a novel and non-obvious geometric craft kit. As a craft kit which is used to make designs and shapes it has patentable utility; thus, applicants arguments concerning the rejections under 35 USC 101 are persuasive.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
